PRODUCT DATA SHEET

CONTRACTOR CLEAN-UP BAGS

ITEM # 662297

- **Quick Tie Wing Flaps**
  Maximizes bag capacity.
- **New Improved Formula**
  Superior puncture and tear resistance for even the toughest jobs.
- **Patented Side Handles**
  Easier to lift and carry the box to the jobsite.
- **No perforations**
  Bags dispense individually through cut-out tab.
- **Pallet Pricing**
  Ask your Inline sales representative for special pricing on pallet quantities (140 Boxes per pallet).

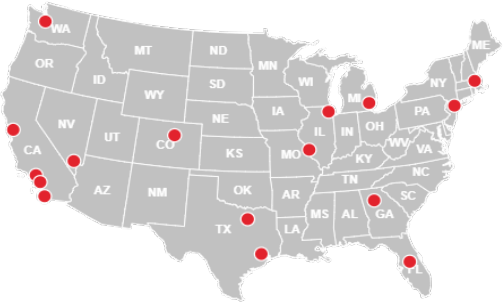

The INLINE Contractor Clean-Up Bags are built for the toughest jobsites, renovations, and heavy-duty clean-outs. Engineered with 3 mil industrial-strength thickness and our new 50% stronger formula, these bags deliver superior tear and puncture resistance when handling sharp debris, wood, metal, or heavy waste.

Unlike perforated rolls, INLINE bags are dispensed individually. No more searching for the next perforation. Each box is designed with patented side cut-out handles, making it easy to carry straight to the jobsite.

Perfect for contractor, commercial, or residential use, INLINE clean-up bags combine strength, convenience, and professional-grade performance.
